Arizona's Complaint.

Special to the Gazette.  
WASHINGTON, May 27.—Delegate M. A. Smith of Arizona called on the president this morning and handed him a long telegram which he had just received from certain citizens of Tombstone, A. T., relative to the recent murders committed there by hostile Indians that have escaped from the San Carlos reservation. Delegate Smith told the president that the people of Arizona felt that the army had been inactive long enough, and that the time had come for prompt measures for the government for the protection of life and property of citizens. The president assured him that he would take immediate steps to remedy the evil so far as lay in the power of the forces of the government. The telegram was sent to the war department, bearing the following endorsement in the handwriting of the president: "This telegram is submitted for the information of the secretary of war with directions to take prompt and effective measures to protect the settlers, and to capture and bring to merited punishment any hostile Indians who have been concerned in killing our citizens."

WORLD'S FAIR COMMISSIONER.

The president has appointed Henry Exall of Texas as commissioner at large for the World's fair. Mr. Dickinson has been mentioned for the place, but as he is one of the state commissioners the president said he could not give him the appointment at large. Mr. Dickinson's experience in such matters will be of value, and he is looked upon as one of the best equipped men appointed from any state for this important place.

Commerce Committee on Oleomargarine.

WASHINGTON, May 27.—The house committee on commerce agrees this morning to report Flower's bill, providing that no state shall be restrained in its power to prohibit, control, or tax the sale or transportation of oleomargarine, by reason of the fact that it has been imported from beyond the limit of such state. This is designed to prevent oleomargarine manufacturers from setting up as a bar to state tax that it has already paid tax in another state, where it was first made or sold. The only amendment made by the committee was to permit free and continuous transit of oleomargarine through the states in which traffic in such articles is taxed, or while being conveyed from one point outside of said state to another outside.

From State to Federal Courts.

Special to the Gazette.  
WASHINGTON, May 27.—The house judiciary committee has agreed to report Stead's bill to amend the act providing for the removal of cases from state to federal courts, so amended as to include the substance of Reed's bill on the same subject. The Reed bill requires that the matter in dispute shall exceed, exclusive of interest and costs, the value of \$2000. The Stewart bill provides that any civil suit in the state court arising under constitution laws or treaties of the United States, and of which the United States circuit courts would have competent jurisdiction may be removed by defendants to circuit court of proper district. Any other suit in which defendant is citizen of another state than that in which suit may be brought may remove it at the instance of defendant to the circuit court, or one or more of the defendants entitled to cause such removal may have it made as regards their own interests in controversy, which the circuit court may remand the case to the state court for determination as other defendants of the circuit court become satisfied that the suit has been removed without proper cause, it may remand it to the state court, and no appeal or writ shall be entertained. Ten days' notice with statements and reasons must be given to the other side by the party demanding removal.

Not Sufficient Time.

Special to the Gazette.  
WASHINGTON, May 27.—The state department has notified the senate finance committee, which has charge of the McKinley bill, that the time allowed by the bill for the law to go into operation after enactment is not sufficient to enable the consuls in the various European ports to be informed of its provisions.

An International American Bank.

WASHINGTON, May 27.—President Harrison has transmitted to congress a letter from the secretary of state upon the recommendation of the Pan-American congress that an international American bank be established. A draft of a bill to authorize incorporation of the bank accompanied the message.

An Important Census Notice.

WASHINGTON, May 27.—The superintendent of census has issued the following important order to supervisors of the census: "You will please instruct enumerators in cases where persons refused to answer questions on population

schedule relating to physical and mental disabilities (22 and 23) or to questions relating to farms, homes and mortgages (26 to 30 inclusive) to enter into proper column words 'refused to answer.' No future steps will be necessary on the part of supervisors or enumerators, and all legal proceedings will be instituted by the Washington office through the department of justice."

Eleventh Census on Finances.

WASHINGTON, May 27.—The census office to-day made public the first results of the Eleventh census in relation to state and local finances. It consists of a preliminary report by Campbell Copeland, in charge of the local finance, on the indebtedness of 2809 counties in the United States. Reports show that the principal of state debts at present is \$228,679,817; of this amount \$194,054,206 is bonded debt and \$33,725,610 floating debt. This shows a net decrease in the total debt during the last ten years of \$54,459,484, the bonded debt having been decreased by \$64,083,249 and the floating debt increased by \$9,623,734. The states have reduced their debts to this extent, says the report, mainly by applying to the redemption of their obligations, revenues not being needed for current expenses.

For the Payment of War Claims.

WASHINGTON, May 27.—Senator Faulkner to-day introduced a bill to authorize the secretary of war to cause to be investigated and to provide for payment of all claims for use and occupation of church, college and school buildings by the United States military authorities during the late war. Payment shall be made also for all such buildings destroyed during their occupation by United States troops.

MURDER OR SUICIDE?

A Man Found Dead in His Room at Bonham.

A Bullet Hole in His Head—Speculations of Murder.

Special to the Gazette.

BONHAM, TEX., May 27.—At an early hour this morning the dead body of J. M. Vivalte was found in his bed at his place of business on Main street. The body was lying in a great pool of clotted blood, which had run from a large hole in his right temple made by a pistol ball. His brains had also been scattered over the bed. Vivalte had been in the city for some months, and was a dealer in sewing machines and musical instruments. He was an Austrian by birth, and came here alone, but is said to have a wife living somewhere in the East. At first it was supposed to be a case of suicide, but this evening it is considered doubtful, as there are some evidences of it being a case of murder. When the blood was washed from the wound there was no signs of a powder burn, and a pistol held in the hand of the deceased in such a way as to put the bullet through his temple as it went, must have been close enough for the powder to have burned the flesh. There are some other suspicious circumstances. Officers are investigating the case, and will find out what there is in it.

HOGG AT SHERMAN.

His Speech Enthusiastically Received—Pendleton Also Speaks—Judge Bryant Receives the News of His Confirmation.

Special to the Gazette.

SHERMAN, TEX., May 27.—The opera house was crowded this afternoon, the occasion being the appearance of Mr. Hogg on the political issues of the state, favorable to the railway commission. There is no denying the fact that the arguments produced by Mr. Hogg were well received by the most of the audience, especially the farming element. While the speaker was weary from continuous speaking, he made his arguments clear and to the point, and brought his two and a half hours' speech to a close by saying that he, if elected governor, would enforce the laws or leave the state. Frequent was the applause, and the ladies present seemed to enjoy this, the first political love feast of the season.

Hon. George C. Pendleton of Bell.

England Asked to Fix a Date for

Probable Reason.A Russian Baron Causes a Sensation—Glad-

mirers from Hawarden Castle.

Gladstone Addresses an Immense Crowd.

Special to the Gazette.

LONDON, May 27.—An immense gathering of people assembled on the grounds of Hawarden Castle to-day to listen to an address by Gladstone. Throughout the morning special trains packed with people from English and Welsh towns and villages, far and near, were constantly arriving, while hundreds of persons living within a few miles of the premier's seat joined in the procession and marched to the castle. Gladstone was in excellent form and voice and addressed the vast crowd from an elevated position on a corner of the castle yard while Mrs. Gladstone held an umbrella over his head to shield him from the rays of the sun. He was frequently interrupted by applause, and the utmost enthusiasm prevailed throughout the day. Among the crowd were many recognized Conservatives, but the speaker's remarks elicited from them no signs of disapproval.

DOCK LABORERS STRIKE.

The discontent of Liverpool dock laborers has again manifested itself in the action of 300 of their number engaged in handling timber who struck to-day for an advance of wages to six shillings a day. The strike is insignificant in itself, but the men are encouraged in the movement by the support of the Dockmen's Union, and the likelihood that it will spread through sympathy is very great. As yet no attempt to fill the places of the strikers has been made, consequently there has been no disturbance.

AN INSPIRED ARTICLE.

The Paris Figaro, in an article analyzing the relations between France and England, advances the suggestion that Lord Salisbury fix a date when England will evacuate Egypt. Such action on the part of Great Britain, the paper assures its readers, would be the beginning of the speedy settlement of existing differences between the two powers over which there has been so much fruitless controversy. In return for England's withdrawal from Egypt, France would consent to relinquish her rights in New Foundland, and thus the only points of contention between the Paris and London governments would be wholly removed. It is believed the publication of this suggestion is made upon official authority and put forward as a feeler.

A MINISTER RESIGNS.

Dr. Von Scholz, Prussian minister of finance, has resigned his position in the ministry, and has suddenly taken his departure from Berlin. No reason is given for his retirement, but it is surmised that as one of the most prominent members of Bismarck's ministry he found himself not in accord with the policy of the present administration. In accepting the resignation of Dr. Von Scholz, the emperor conferred upon him the order of the Black Eagle.

A BERLIN SENSATION.

A sensation has been caused in Berlin by the discovery that the Russian baron, Weislik, is the owner and conductor of the Russophile news agency in the German capital. The connection of the baron with this enterprise has been maintained with so great a degree of secrecy that its disclosure is something in the nature of a shock. Coupled with this discovery is the equally startling revelation that the baron's wife, who is of American birth, is an intimate friend of Countess Von Waldsee, with whom she has exchanged frequent visits of late.

Alliance Between Russia and Germany.

Special to the Gazette.

LONDON, May 27.—Henry Rochefort says he learns on good authority that the conclusion of an alliance between Russia and Germany is near at hand. This, he adds, would give Boulanger another opportunity. He would be recalled as the only commander France has confidence in to oppose such a combination should active operations become advisable.

Destroyed by an Earthquake.

CONSTANTINOPLE, May 27.—The village of Rephe in Armenia has been destroyed by an earthquake. A number of mineral springs spouted from the crevices made in the earth by the shock, and the flood of water was so great that adjacent fields were flooded with it. The earthquake was preceded by rumblings, which caused the inhabitants to flee from the village, and they thus escaped death from falling houses. No lives were lost.

Panama Canal Shareholders.

PARIS, May 27.—The parliamentary commission appointed to consider the position of the Panama canal shareholders declared that the shareholders are entitled to an accurate statement of the expenditures, and has referred the petition to the minister of justice.

The Emperor's Sore Foot.

BERLIN, May 27.—The emperor's foot is swollen and he is unable to wear a boot. He has been ordered to keep in his room ten days. All engagements have consequently been postponed.

Uniforms for German Scholars.

BERLIN, May 27.—Emperor William has summoned a conference of scholars to discuss the subject of fixed uniforms for German scholars. The conference will be held in Berlin. Austria and Switzerland have been invited to send delegates.

Bartlett.

Correspondence of the Gazette.

BARTLETT, TEX., May 26.—The barn

of Rev. E. J. Morris, living one mile north of Bartlett, together with two

wagons, one buggy, a jack valued at \$500, and a fine mule was burned last night. Loss, about \$1000. No insurance. The origin of the fire is unknown, but is supposed to be the work of an incendiary, as tracks could be plainly seen leading to and from the barn.

Various committees have been appointed to arrange for Bartlett's annual Fourth of July celebration.

After a very successful term of eight months the Bartlett high school closed Friday.

PRESBYTERIANS.

After the Transaction of Various Matters of

Importance, the Northern Assembly

Adjourn to Meet in Detroit in 1891.

SARATOGA, N. Y., May 27.—In the Presbyterian General Assembly this morning the committees on bills and overtures and judiciary committee recommended "no action" on several proposals.

The report of the committee on narrative gave a summary of progress over the entire field. The total number of communicants is over \$56,000, a gain during the year of 103,902. Benevolent contributions to all causes was not less than \$13,000. There is a tendency to increase the number of stated supplies and lessen the number of pastors. There is great need that elders make more of their important office. Large additions from our Sunday-schools have been made to our churches, but we regret that in many there is neglect of our own lesson helps, and a deplorable tendency to non-attendance at church by Sunday-school scholars. Family worship and infant baptism should be more generally kept up. Yet, in spite of Sabbath-breaking, gambling, intemperance, floods and disease, progress has been made. No year has seen such increase of members.

Notices of death of the large number of 117 ministers were read by the clerk. The assembly arose and was led in prayer by Rev. Theodore F. White. Most of the deceased were quite advanced in age.

Dr. Fluke moved that the revisor committee be allowed to publish their conclusions as early as March or April next in the next dissection. Adopted.

Various standing committees reported they had no more business and was discharged.

The roll was called by synods and showed that a goodly proportion had stayed through to the end of this memorable session.

After remarks by the moderator and prayer by Howard Crosby, D. D., benediction was pronounced and the assembly stood adjourned to meet at Detroit next year.

Immediately after adjournment the

committee on revision held a meeting and

decided to meet in Pittsburgh the first

Tuesday in October.
